

AMARI STERILE CLADDING SOLUTIONS

A series of innovative, but proven hygienic and sterile cladding solutions that combine state of the art chemical and biological technology with experience, skills and resources to maximise sterility in healthcare and food preparation.

The critical consideration for any cladding application is to ensure that the most appropriate product is installed taking into account the level of protection required, the working environment and, of course the in-place costs. SteriClad provides a high quality cladding solution using sheet, profiles and fixings manufactured to exacting and recognised European standards.

Amari Plastics can assist and advise on all aspects of specification, implementation, and installation wherever the location and whatever the application.

The information contained herein is based on our knowledge and experience and is given in good faith as guidance only. No warranty or guarantee is given or implied and no liability will be accepted by the Company in respect of an third party reliance on this information. ©Amari Plastics plc 2008 All trademarks acknowledged.
